

UAT Test Data Plan

เอกสารนี้ใช้เตรียมข้อมูลทดสอบก่อนเริ่ม UAT เพื่อให้ทุก role ทดสอบ scenario

เดียวกันและเทียบผลได้

หลักการ

- ใช้ข้อมูลทดสอบเท่านั้น
- ห้ามใช้ข้อมูลผู้ป่วยจริงถ้าไม่ได้รับอนุมัติ
- ทุกข้อมูลต้องมี owner และ expected result
- ถ้าต้องลบหรือ reset ให้ IT เป็นผู้ทำ

Clinic And Users

Data	Example	Owner	Ready
Clinic ID	clinic-uat-001	IT/Admin	
Admin user	admin.uat	IT/Admin	
Doctor user	doctor.uat	IT/Admin	
Nurse/front desk user	nurse.uat	IT/Admin	
Pharmacy user	pharmacy.uat	IT/Admin	
Cashier user	cashier.uat	IT/Admin	
Witness user	witness.uat	IT/Admin	

Patients

Patient	Purpose	Required data
UAT-P001	normal clinical flow	no allergy, no chronic condition
UAT-P002	allergy warning	allergy to test drug
UAT-P003	chronic condition/medication	condition and active medication
UAT-P004	billing test	completed encounter ready for invoice
UAT-P005	controlled drug test	prescription for controlled item

Clinical Data

Data	Purpose	Expected result
Allergy: Penicillin	trigger drug allergy warning	warning visible before prescribing/dispense
Condition: Hypertension	clinical profile display	appears in patient detail
Active medication	interaction warning	warning if interaction rule exists
SOAP template	doctor workflow	template selectable while writing note

Data	Purpose	Expected result
Diagnosis sample	billing/reporting	appears in encounter and daily report

Drug Catalog

Drug	Purpose	Required fields
Amoxicillin 500mg	allergy warning and normal dispense	barcode, unit, active
Paracetamol 500mg	normal stock/dispense	barcode, unit, active
Diazepam 5mg	controlled substance test	controlled flag, schedule
Warfarin	interaction rule test	active drug
Aspirin	interaction rule test	active drug

Inventory And Lots

Item	Lot	Expiry	Quantity	Purpose
Paracetamol	LOT-PARA-GOOD	future date	100	normal dispense
Paracetamol	LOT-PARA-OLD	expired date	10	expiry guard
Amoxicillin	LOT-AMOX-FEFO	earliest future date	50	FEFO recommended
Amoxicillin	LOT-AMOX-LATE	later future date	50	non-FEFO override
Diazepam	LOT-DIAZ-CTRL	future date	20	controlled dispense/reconcile

Locations And Bins

Location	Type	Purpose
MAIN-PHARMACY	pharmacy	default stock
DISPENSE-COUNTER	counter	dispense location
COLD-CHAIN	storage	label/bin test
QUARANTINE	holding	transfer/cancel test

Barcode And GS1

Barcode	Purpose	Expected
ITEM-PARA-001	item barcode	matches item
LOT-PARA-GOOD	lot barcode	matches lot
GS1 with GTIN + expiry + lot	GS1 parser	shows GTIN, expiry, lot
Unknown barcode	negative test	not matched

Printer Data

Data	Purpose	Expected
Browser printer profile	manual export	delivery exported
Utility bridge profile	bridge queue	delivery queued
Label template: item	item label	title/barcode visible
Label template: lot	lot label	lot/expiry visible
Failed print job	fallback test	can browser/manual fallback
Retried print job	retry test	returns to queue/export

Billing Data

Case	Purpose	Expected
Encounter with visit charge	invoice from encounter	line item created
Medication charge	charge capture	medication line created
Partial payment	payment status	partially paid
Full payment	payment status	paid
Refund	refund audit	refund visible
Void invoice	void workflow	status voided with reason

Reports

Report	Required data
Daily operations	visits, diagnoses, prescriptions
Billing summary	invoices, payments, refunds
Pharmacy overrides	FEFO/expiry override rows
Controlled substances	receiving/dispense/transfer events
Printer bridge health	queued/failed/fallback/retry print jobs
